2. The purpose of their attendance will be threefold. First, to meet and interview scholars of potential employment interest to OPR. Second, to attend the various sessions of substantive interest to them as individuals. Third, to make the point that CIA, and specifically the DDI, performs a legitimate research function, and to build respect for that role among professionals in attendance at the Convention.

3. At the request of the AHA, the undersigned will conduct a small discussion on the sorts of work an historian may do in Government. He will draw on his knowledge of CIA, State, and other agencies.

4. I wish to authorize actual subsistence for those who will attend. Costs in Chicago are quite high.

Deputy Director, Political Research
